INDEX TO VOLUME 23

Authors

Hayes, F. R. and Pelluet, D.—The effect of temperature on the growth and efficiency of yolk conversion in the salmon embryo, 7.

Kosin, I. L.—See Munro, S. S.

Miller, R. B.—
Studies on cestodes of the genus *Triaenophorus* from fish of Lesser Slave Lake, Alberta
III. Notes on *Triaenophorus nodulosus* (Pallas) in the second intermediate host, 1.
IV. The life of *Triaenophorus crassus* Forel in the second intermediate host, 105.
V. Description and life history of *Triaenophorus stizostedionis* n. sp., 117.

Munro, J. A.—The birds of the Cariboo Parklands, British Columbia, 17.

Munro, S. S. and Kosin, I. L.—Proof of the existence of pre-oviposital embryonic deaths in chickens and their bearing on the relation between 'fertility' and hatchability, 129.

Nesbitt, H. H. J.—A revision of the family Acaridae (Tyroglyphidae), Order Acari, based on comparative morphological studies. Part I. Historical, morphological, and general taxonomic studies, 139.

Pelluet, D.—See Hayes, F. R.

SECTION D

INDEX TO VOLUME 23

Subjects

Acaridae (Tyroglyphidae), order Acari, Revision of, based on comparative morphological studies. Part I. Historical, morphological, and general taxonomic studies, 139.

Burbot, Notes on Triaenophorus crassus in, 1.

Cestodes of the genus Triaenophorus from fish of Lesser Slave Lake, Alberta, Studies on,

III. Notes on Triaenophorus nodulosus (Pallas) in the second intermediate host, 1.

IV. The life of Triaenophorus crassus Forel in the second intermediate host, 105.

V. Description and life history of Triaenophorus stizostedionis n. sp., 117.

Chickens, Proof of the existence of pre-oviposital embryonic deaths in, and their bearing on the relation between 'fertility' and hatchability, 129.

Copepod(s), See Cyclops bicuspidatus.

Coregonus clupeaformis, as host of Triaenophorus crassus, 105.

Cristivomer namaycush, as host of Triaenophorus crassus, 106.

Cyclops bicuspidatus

as carrier of Triaenophorus crassus to Leucichthys sp., 112.

as first intermediate host of Triaenophorus stizostedionis n. sp., 125.

Eggs of chickens, Proof of the existence of pre-oviposital embryonic deaths in, and their bearing on the relation between 'fertility' and hatchability, 129.

Embryo(s)

of chickens, Proof of the existence of pre-oviposital deaths of, and their bearing on the relation between 'fertility' and hatchability, 129.

of salmon, Effect of temperature on the growth and efficiency of yolk conversion, 7.

Esox lucius, as host of Triaenophorus crassus, 106, 115.

'Fertility' and hatchability in chickens, Proof of the existence of pre-oviposital embryonic deaths and their bearing on the relation between, 129.

Fish(es)

Coregonine, as hosts of Triaenophorus crassus, 105.

of Lesser Slave Lake, Alberta, Studies on cestodes from,

Triaenophorus crassus in the second intermediate host, 105.

T. nodulosus in the second intermediate host, 1.

T. stizostedionis n. sp., Description and life history of, 117.

See also specific kinds and species.

Growth of salmon embryo, Effect of temperature on, 7.

Hatchability, 'Fertility' and, in chickens, Proof of the existence of pre-oviposital embryonic deaths and their bearing on the relation between, 129.

Inconnu, as host of Triaenophorus crassus, 106.

Lake trout, as host of Triaenophorus crassus, 106.

Leucichthys sp., Life of Triaenophorus crassus in, 105.

Lota lota maculosa, Notes on Triaenophorus crassus in, 1.

Mites, A revision of the family Acaridae (Tyroglyphidae), order Acari, based on comparative morphological studies. Part I. Historical, morphological, and general taxonomic studies, 139.

Parasite(s)

Cestodes of the genus Triaenophorus from fish of Lesser Slave Lake, Alberta, Studies on, 1, 105, 117.

Mites (family Acaridae) that live as, 140.

Percopsis omiscomaycus, as second intermediate host of Triaenophorus stizostedionis n. sp., 125.

Pickerel, See Pike-perch.

Pike, as host of Triaenophorus crassus, 106.

Pike-perch, Life history of Triaenophorus stizostedionis found as an adult in, 117.

Poultry, See Chickens.

Prosopium oregonium, as host of Triaenophorus crassus, 105.

Salmo salar, Embryo of, Effect of temperature on growth and efficiency of yolk conversion in, 7.

Salmon, Embryo of, Effect of temperature on growth and efficiency of yolk conversion in, 7.

Stenodus leucichthys, as host of Triaenophorus crassus, 106.

Stizostedion vitreum, Life history of Triaenophorus stizostedionis found as an adult in, 117.

Temperature, Effect of, on growth and efficiency of yolk conversion in the salmon embryo, 7.

Triaenophorus, See Cestodes.

Trout, Lake, as host of Triaenophorus crassus, 106.

Trout-perch, as second intermediate host of Triaenophorus stizostedionis n. sp., 125.

Tullibee, Life of Triaenophorus crassus in a fish that is probably, 105.

Tyroglyphidae (Acaridae), order Acari, Revision of, based on comparative morphological studies. Part I. Historical, morphological, and general taxonomic studies, 139.

Whitefish(es), as host of Triaenophorus crassus, 105.

Worms, See Cestodes.

Yolk conversion in the salmon embryo, Effect of temperature on, 7.
